Ripping fence

Scoring unit: Equipped with an independent 1 Hp motor, the scorer can easily be regulated directly by two external knobs with absolutely no needs for adjustment keys! This feature not only saves time but also guarantees high reliability and exact precision.

Control panel: The standard version is equipped with overload protection switches and a high quality star-delta starter. In the version which responds to the European CE norms, the standard machine features a selfbraking motor, emergency switches and a parallelogram protection for sawblade.

Square support frame
